

What would you like to add to ExhibitFiles?

A case study

of an individual

or an entire

that I worked on.

A review

of an individual

or an entire

that I saw in person.

The use of the term "exhibit" here denotes an individual exhibition component, while the term "exhibition" refers to a collection of exhibits.

Case Studies are to be authored by anyone involved in the development process of the exhibition or exhibit.

Reviews are to be authored by individuals not directly involved in the development process but who have seen the exhibition or exhibit in person. Reviews are not meant to be critiques of case studies.
