

What do you like about the "Magnets, Motors, and the Mind" exhibition room?

It was awesome

Basketball

We love the air tubes and the lightening ball and the paper airplane launcher

Everything-magnet sand

Needs more hands on exhibits for little kids

Great

Love the wind tunnel, quiet light, especially paper airplane launcher

It is awesome!

The hands-on aspect. Wind tunnels were the favorite.

Yes!!!

It's great fun!

All :)

Hands-on learning with concise explanations for kids. Similar to LA's Museum of Science.

We love having something new to learn about when we come to Thanksgiving Point!

All of it. The exhibits were wonderful and the staff was informative, friendly, and knowledgeable.

Everything

Really cool!!

I liked the basketball one because it was easy

some stuff

I like that it is fun and pretty awesome

Wish there were a few more hands-on exhibits

That its not boring

Awareness test, perspective drawing, basketball, words, wind tubes

Very fun hands-on science

My kids were very intrigued with the fans, basketball hoop, and perseptive stations

We loved it!

They all give you a challenge to try and solve them

It's awesome!

Everything! I hope this science room continues my family and friends love it!

That its hands-on and very child-friendly

Its fun

I like the magnet with the tv. I like everything

Magnets

Very hands-on

Magnets are fun, I liked the magnet stuff

Great exhibits, good information, hands on

It opens a whole new way of looking at the world

TV

Kids can actually experience different things that make learning fun

They're cool, make kids learn and think

The kids can see how their actions create-Learn about basic laws of physics

We think it's great to be hands-on with the exhibits. To see how things work up close

It teaches you about how things work!

It's cool

Nothing

Absolutely loved it! The unusual applicaion of every day stuff is great

What suggestions for improvement do you have?

none

Have a magnet car with a magnet that pushes it along

Put a crank on the gears so they move easier

A trash by the fans/more papers

Easier instructions on exhibits

Tell on each item what ages are appropriate to use it

More stuff

None at this time

More exhibits regarding electricity

Better lighting

Don't really like electrical ones along wall-don't seem to work like instructions

Make things easier for younger kids!

More warning! It wiped out my memory card in my camera when I took a pic :(

Make a whole museum with these sorts of exhibits

None

More stuff

None

I've never tried this before but try heating up corn starch and water

Get more stuff

Build better walls for little kids

For the paper not to get stuck in tube

More stuff

Simpler to understand (if possible)

None-more exhibits!

A few more things to add to the fan

None. This whole exhibit is great!

Exhibits that aren't easily destroyed

None-it is excellent

I don't know

?

More things for kids

Hand sanitizer

Fix magnetic waves

Hand sanitizer

More!

None. It's good

Change it up once a month

Just make sure the markers for the perspective exhibit are always working

Add more things in the try it out room

Fix the black things that fly

Make things work

Well I wish we could get the magnetic dust exhibit back

We came once and it wasn't working. That's all.

What is your favorite exhibit, and why?

Basketball

Basketball because it is with the funny glasses that make it hard
magnet sand

Basketball because the little kids can do it

Wind blowing machine-kids liked it

Wind tunnel because my daughter loves it!

Illusions they are cool

Wind tunnels

We loved the magnetic sand table..sad it's gone

fans with stuff you make

magnet gears you can rearrange because you can create things

The "try it 15 times!" It is fun and funny!

Electric wire and magnet-where wire moves when pushing button

Magnet to tv screen

Awareness exercise-my 10 year old loved!

Dave took us "back stage" (I'm an employee) that was cool.

Basketball one

basketball the glasses thing

The pictures

The basketball one

?

This one cause I like inventing

The tv one

I like the thing with drunk goggles

Awareness test-cool and hilarious!

Magnetic sand, hands-on fun

The fan, its fun to watch my kids make things "fly"

The mind-because it has to do with noticing things that you would not normally notice

Basketball-its cool to look through the drunkie glasses :P

Wind tunnels-we have been back many times, always a favorite. Creative.

Fans blowing things up

Blow air

I like the awarness test because it is challenging and cool

Magnets because it is fun

Basketball shooting

Wind thing

Air flow tubes, magnetic dirt, magnetic particle flow, haiku blocks

Silent lightening

I rock

Basketball. I work with ppl with visual disturbances. Nice to see what they can do.

All

We really like the drawing near far..it's so simple yet amazes us every time.

The magnetic exhibit was great! We want it back. We also like the basketball. All great.

The try it room cause it has cool things in it

it is fun

The ones that work

I liked the moon walking bear lol

The Daisey Dyno motor design simplification

Do you have any other great ideas you would like to share with us?

No

Add chairs for tired moms or grandparents

The exploratorium in San Fran has bubble stuff I think that'd be awesome!

Self discovery aspects-kids have good imaginations

Seating by the exhibits

Parents lounge

Have employees perform demonstrations and have "shows" throughout

Fun science exhibits like dry ice, making bubbles etc.

Nothing! We really like it!

See what floats, and what doesn't, find out which item is attracted by magnets

Perhaps a tube with magnets inside that let you play with the polar opposite effect

More hands-on

Nope!

Nope all fantastic!!

No!

No

No

Optical illusions

Not really

I would love a mothers lounge somewhere on grounds. Hard to find place to nurse.

No

Try broadening horizons and ideas

Please add water features

Not yet :)

You should get two giant magnets and hang one from the ceiling and other off the ground and watch them

Thanks for the hands-on exhibits the kids could stay for hours in this room

Nope sorry

You can make a mini parachute with a hair dryer-point the dryer where the balloon is and it will fly

mirrors

Better customer service-it stinks!

I wish I could make stuff like that

smart

We like to see the exhibits change but then rotate back

Nope

We love this place

The whole thing is wonderful. We have come to visit several times. We look forward to new museum 2011

No. Sorry.

Bone digging

Well the perspective exhibits pen is out of ink :(and I really wanted to try it

Maybe you give a little more technical info for those of us who would understand. Volts, amps, watts, etc.
